

PRODUCT DATA SHEET

SWP®-1

Waterproofing Admixture

DESCRIPTION

SWP®-1 is a liquid waterproofing admixture for mortar and concrete, designed for normal setting

USES

SWP®-1 is used for waterproofing of mortars and concrete, particularly for:

- Renders, masonry mortars, and screeds
- Reinforced and unreinforced concrete
- Brick, concrete, and stone substrates
- Applications in tropical and hot climate conditions
- Indoor and outdoor uses, such as basements, swimming pools, tunnels, water tanks, manholes, and culverts.

CHARACTERISTICS / ADVANTAGES

SWP®-1 blocks the capillaries and pores in the applied cementitious system, creating an effective water barrier against the transmission of liquid water.

The benefits of SWP®-1 include, but are not limited to, the following:

- Increased impermeability of mortar/concrete
- Ready to use
- Easily dispersed
- Chloride-free

PRODUCT INFORMATION

Chemical Base	Acrylic polymers
Packaging	5kg- 200kg
Appearance / Colour	Brown liquid
Shelf Life	12 months shelf life from date of production if stored properly in undamaged, unopened, original sealed packaging.
Storage Conditions	Storage at temperatures between 5 °C and 30 °C. Protect from direct sun light, frost and contamination
Density	~1.03 g/cm ³
Chloride Content	≤ 0.01 %

APPLICATION INFORMATION

Recommended Dosage	Add one part of SWP®-1 to 10 parts of water, which is equivalent to approximately 3 % of cement content. When using very wet sand, the ratio must be increased to 1:8 or in extreme cases 1:6. Note: Trial mixes should always be conducted to establish the exact dosage rates and water requirements per mix
Compatibility	SWP®-1 may be combined with many other Sirigiri® products. Compatible with all types of

cements and cementitious materials. Important: Always conduct trials before combining products in specific mixes and combinations.

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data

APPLICATION INSTRUCTIONS

MIXING

SWP[®]-1 must be stirred slowly before use to ensure a homogeneous, lump free consistency. SWP[®]-1 shall be diluted in the gauging water. The dilution must be stirred slowly (to ensure a homogeneous, lump free consistency) prior addition into the mortar/concrete mixer. SWP[®]-1 can also be added neat to the mortar/concrete mix provided that the mixture is properly mixed to achieve a homogeneous consistency.

APPLICATION METHOD / TOOLS

The standard rules of good concreting practice (concerning production, placing and curing) are to be followed. Refer to relevant standards.

SWP[®]-1 may be combined with many other Sirigiri[®] products. Note: Preliminary testing is required to prove the compatibility. Please contact Sirigiri technical service for more information and advice.
